ENABLING BUSINESS BY MANAGED TECHNOLOGIES

MANAGING DIRECTOR

QUALITY POLICY

“We commit, to deliver eminence security service to our clients. We believe that Client is the most important to our business. We are not doing them a favour by our service. They are doing us a favour by giving us an opportunity. We should pay off them with our excellent service.”

PREFACE

ManKut is a leading security and facility management company with offices in the capital cities of South India. ManKut operate in all market segments and has a customer and staff centric. This is illustrated by our single point of contact account management programme and our investment in staff training.

Our training programme provide a variety of industry, customer service and client specific programmes for ManKut security employees.

Our company values-Integrity, Team work, Attitude, Performance and Passion which are carefully chosen and it form the framework for our commitment to outstanding customer service as well as in guiding our daily actions.

We train and manage our staff in accordance with the latest HR technologies.

WHAT WE DO

ManKut provides a full range of security services and facility (house keeping) across all market segments. Our security personnel provide a visible security presence, demonstrating a board range of skills from general guarding to highly specialized security and facility role.

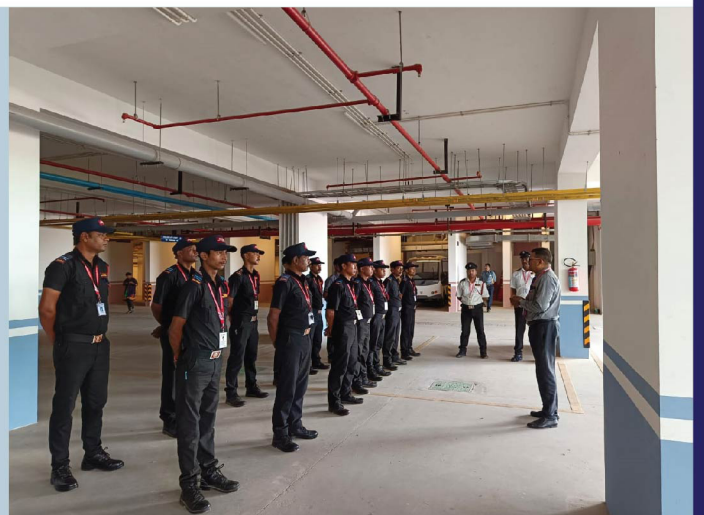

We train and manage our staff in accordance with the latest HR technologies.

TRAINING

ManKut provides the necessary training to meet each client requirement for security and facility services.

We believe that well trained and motivated people are the foundation of success and our in-house training division further demonstrates our commitment to professional development.

WHY WE DIFFER FROM OTHERS

Our expert facilitators and strong Army background enable us to deliver site specific training as per our clients requirement and changing industry needs. The training we offer to our clients is developed in close consultation with relevant personnel to ensure the specific needs of each organisations are met.

We have developed training packages and conducted programmes with excellent feedback in areas such as:
